An essential briefing on the future of education in Bradford for all Headteachers/ Chair of Governors

A collaborative event designed and delivered by the Bradford School Partnerships, Teaching School Alliances and the Local Authority.

As we draw to the end of this academic year, please ensure that you put this date in your diary.

The educational landscape in education is changing. There are significant system changes in Bradford that all school leaders need to understand so that responsibilities and accountabilities are fulfilled.

Robert Hill will provide an insight into national changes in educational policy. He has wide experience of public services and education policy and practice. His C.V. includes periods as a policy adviser to Prime Minister Tony Blair and other Cabinet ministers, senior research manager for the Audit Commission, management consultant, social policy researcher and, more latterly, as an independent education consultant.

School leaders will have the opportunity to reflect on the implications of this for Bradford and for individual schools.
