

Free primary school workshops

RSPB and Aldi - Giving Nature a Home in Schools

We are connecting children to nature through our free outreach workshops in Leeds and Bradford.

So if you and your pupils are interested in exploring habitats, looking for creepy crawlies or identifying common birds, we have the session for you.

- Our trained educators will deliver a day of inspiring outdoor workshops in your school grounds.
- Each workshop is approximately 90 minutes, with at least 30 minutes spent outside, and is suitable for KS1 and 2.
- With great links to the National Curriculum and Eco Schools – what are you waiting for?
