

Teaching School Alliance

NORTHERN LIGHTS

Return to teaching with Northern Lights TSA. Get back to making a difference.

Introducing a new, DfE funded initiative to help teachers return to the classroom. If you have QTS and you're ready to come back, we're here to help.

Is your subject specialism in **English, Mathematics, Geography, History, Biology, or Chemistry**? From January 2016 onwards Northern Lights TSA can support you in your personal path back to teaching.

Our commitment to you

- A conversation to find out more about you and an Initial Needs Assessment
- Bespoke programme of training and support delivered by outstanding professionals
- School Experience including opportunity to lead teaching activities
- A Mentor dedicated to you
- Access to CPD sessions in Alliance schools which support current teaching and learning practice
- Online support
- Input from colleagues in a broader spectrum of settings
- Support through the recruitment process to find the right post for you

Please contact us for a chat about how this could work for you:

Teaching School Alliance

NORTHERN LIGHTS

Northern Lights Teaching School Alliance, established in 2011, is a partnership of schools based across the southern end of the Yorkshire Dales, including Skipton and Harrogate, and the metropolitan area of Bradford. The Outstanding lead schools of Skipton Girls' High School and Feversham College work with strategic partners, and a wider group of schools across the alliance area, to deliver professional development programmes from Initial Teacher Training to Aspiring Senior Leaders.

We have a wealth of experience in supporting schools and teachers.

NLTSA Initial Teacher Training programmes are school led and include Primary School Direct, in partnership with Leeds Trinity University, and Secondary School Centred Initial Teacher Training, where we are the accredited provider.

Our team of over 25 designated Specialist Leaders of Education (SLEs) both facilitate multi-school training sessions and are deployed into local schools to offer support. They are experienced in identifying areas for development and implementing bespoke support plans.

The Northern Lights Science Learning Partnership, in collaboration with Sheffield Hallam University, ensures that we are at the forefront of Science teaching and learning practice. We are also a provider of Teacher Subject Specialism Training in secondary Physics, funded by the National College for Teaching and Leadership, which aims to equip non-specialist teachers to teach Physics.

If you would like to discuss how this wide range of expertise can support you, please contact us.
