

STEM CAREERS AND ENGAGEMENT

Future Skills Academy is offering a range of services to support employers to attract suitable candidates for current and future roles in their business.

In collaboration with employers, STEM apprentice ambassadors, and WISE resources we aim to build on the success of the 'People Like Me' WISE Campaign to deliver an on-going cycle of events and interactions to attract young people, particularly girls into STEM careers.

We are currently recruiting schools and colleges who share the same passion for inspiring young people to investigate the full range of opportunities:

Intermediate Apprenticeships and Advanced Apprenticeships

Degree Apprenticeships and Graduate Placements/ Internships

To register interest, contact Debbie Lumb

Mobile: 07904 813 646
