Aiming High for Children

Childminding Forum Summer 2017

Target Audience: Childminders

Excellent opportunity to meet with like-minded professionals and debate Early Years Learning and care. The forums are part of the Local Authority's role to ensure our youngest children receive high quality services in the district. These sessions are for Childminders to find out about relevant local and national developments and to reflect on current issues within the sector.

At the sessions the following items will be discussed:-

- Children's Centre Update
- Local Authority updates and priorities
- Integrated Early Years Strategy – Physical Activity - **Please bring examples and be prepared to share how you implement your policies for food/drink and physical activity**
- Early Years Development in Bradford (EYDiB)

For some time now, we have been looking at ways to help analyse children's development. The aim of the EYDiB project is to help providers collect assessment data for children in their setting on a regular basis to assess children's development and work in partnership with the LA to further support their learning needs.

Date	Venue	Time

To book a place:

Bradford Council has launched a new Learner Management System, Learn and Develop with Bradford. If you have Google Chrome installed on your computer you can access the site by typing the following into the address bar:

<https://bradford-external.sabacloud.com>

Alternatively copy the link into your browser address bar

Select the Early Years (including children's centres) Category

Many Windows XP computers are running outdated versions of Internet Explorer which simply cannot cope with the functions of modern web pages. If you do not have Google Chrome installed you will need to contact your IT support who will install Google Chrome on your computer.

Please note external learners are required to sign up for an account so you can login and enrol for a place on a course date or e-learning module. **The email entered will be assigned as the learner's username for login so a unique email address must be used for each learner.** Unfortunately, it is not possible to use one email for multiple learners.

Please note all 3 class dates are only viewable once you have logged in.
