

Evidence for Gold:

Collecting evidence for GOLD is not intended to make you lots of extra work.

In terms of evidencing the whole school approach, like in SILVER, you will provide:

1. Photos/written guidance that showcases on paper the whole school approach of:
 - Culture and Ethos evidence,
 - Education and Curriculum evidence,
 - Families and Communities evidence,

Sections	Subsections
Culture and Ethos	Leadership & Management Ethos & Environment Staff Voice & Development
Education and Curriculum	Teaching and Learning Targeted Support Need & Impact
Families and Communities	Parents & Carers Pupil Voice

So, this means you might choose to take photographs of parent groups, school council in action, prominent displays, workbooks; basically anything you think evidences your whole school approach. You might want to send in info about your SEL curriculum you have invested. In some ways, the evidence could be described as a *'portfolio'* which means you do not have to prepare loads of new stuff!

IT IS LIKELY THAT YOU WILL JUST WANT TO ADD TO WHAT YOU ALREADY PRODUCED IN SILVER

All the following should be downloadable:

2. Attendance/exclusions/progress and attainment since developing your whole school approach
3. Whole school provision map of your mental health SEMH provision.
4. Whole school Mental Health / Wellbeing / SEMH / Inclusion /Relational / Behaviour Policy
5. **In addition, you will include pre and post measures of a cohort / case study you have supported, to show your skills in measuring impact in improving emotional wellbeing.**
