**Did you know the Department for Education is offering a grant of £1,200 for eligible state-funded schools and colleges to train a senior mental health lead?**

The grant will support your education setting to develop and implement a strategic **whole school or college approach**, supporting you to promote children and young people's mental health and wellbeing.

"I found this course very information and inspiring. The delivery of it was excellent. The Trainer ensured it was engaging through a mixture of listening to her, guest speakers, you tube videos and break out rooms. I valued the time to discuss things with peers and share good practice. The support from the EP to implement it across my school has also been incredible. I personally think every Head Teacher should be made to do this training so they fully understand it"

Bradford Deputy Head  
Teacher, SMHL Lead
