Thriving

Around 80% of children at any one time are experiencing the normal ups and downs of life but do not need individualised advice or support around their mental health issues.

They are considered to be in the 'Thriving' group and benefit from whole school practices promoting emotional wellbeing including: Identified SMT lead for Emotional Wellbeing, Curriculum, School policies, DfE lead training, Relational approach and Healthy Minds Chartermark

Presenting Needs

- Feeling low after a poor test result;
- Falling out with a friend
- Feeling sad after a bereavement.

School Based Support Strategies

Core School Offer

- Whole school approach to supporting emotional wellbeing
- Identified SMT lead for Emotional Wellbeing
- DfE lead training
- Relational approach to manage behaviour
- Social and emotional skills modelled and taught explicitly throughout curriculum
- Healthy Minds Chartermark

Services available in Bradford and Craven

Getting Advice

- This group includes both those with mild or temporary difficulties AND those with fluctuating or ongoing severe difficulties, who are managing their own health and not wanting goals-based specialist input.
- School maintains up to date information on resources and other sources of support to encourage Emotional Wellbeing
- Information is shared such that it empowers young people and families to find the best ways of supporting their mental health and wellbeing.

Presenting Needs

- Coming to terms with neuro diversity issues
- Issues relating to sexuality
- Mild worries
- Friendship issues
- Family problems / home life

School Based Support Strategies

Core School Offer

- School maintains up to date information on resources and other sources of support to support Emotional Wellbeing
- Information is easily available and shared such that it empowers young people and families to find the best ways of supporting their mental health and wellbeing.
- School actively keeps up to date via Mental Health Champions or Mental Health Champions Plus

- This is not conceptually different from the previous group however requires more extensive, specialist goal-based support.
- External resource allocation for a small number of individuals may require particular attention and coordination from those providing services across the locality.
- For example: assessment, consultation and intervention for staff and students, from external support services; Specialist Teacher (SCIL) Team, Educational Psychology, CAMHs

Presenting Needs

- Complex Trauma
- Depressive Symptoms
- Eating Issues (change in weight/eating habits, Negative body image, purging or binging)
- Hyperactivity (levels of over activity and impulsivity)
- Increased levels of self-harm
- Mood Disturbance
- Obsessive thoughts and/or compulsive behaviours
- Moderate Anxiety
- Some thoughts of ending life with no plan or intent

~the criteria is duration of issues, acuteness of issues and what other interventions have been tried

Suggested Tools and Resources

- Therapeutic Story Writing
- Trauma Informed Practice
- Zones of Regulation
- Emotion Coaching

School Based Support Strategies

School Support Level or EHCP (Code of Practice)

- As with previous but also referral to external service or school based Mental Health Practitioner
- For example: Assessment, consultation and intervention from educational psychologist
- 6 weeks 1:1 evidence based intervention from Educational Emotional Wellbeing practitioner.
- Skills and emotional regulation

Services available in Bradford and Craven

Distress

Mild: levels of distress that are unpleasant but tolerable and not present continuously. Little impact on thought processes or behaviour.

Moderate: fairly common experiences of distress that are difficult to tolerate and drive behaviour and thought processes resulting in disruption in daily life.

Severe: high levels of distress that the individual cannot tolerate that have a significant impact on their thought processes and behaviour.

BRADFORD
METROPOLITAN DISTRICT COUNCIL

Risk

Mild: some thoughts of self-harm or suicide, or thoughts of being better off dead but generally fleeting and no plans or intent to act on these thoughts. Plans for the future and protective factors in place.

Moderate: regular and fairly persistent thoughts of self-harm or suicide. May include plans of suicide, but no active planning or intent to act. May include self-harm behaviours that are unlikely to lead to significant harm even if hospital treatment not sought. May also include levels of impulsivity and unpredictable behaviour that are moderately likely to result in significant harm.

Severe: continuous thoughts of suicide, with active planning and intent with likelihood to result in significant harm or death. Or impulsive and highly dangerous acts of self-harm that are likely to result in significant harm or death.

METROPOLITAN DISTRICT COUNCIL

Function

Mild: some difficulty in social, occupational, or school functioning (e.g. occasional absence from school, family tension, arguments with friends) but generally functioning pretty well, has some meaningful interpersonal relationships.

Moderate: moderate difficulty in social, occupational, or school functioning (e.g. few friends, conflicts with family, peers, or co-workers). Likely to interfere with developmental trajectory.

Severe: major impairment in several areas (e.g. work, school, family relationships, friends). Significant impact on developmental trajectory.
