EDUCATE AGAINST HATE

BELIEVE IN BETTER

- We face unique and pressing challenges to ensure the continued stability of relations between our many communities. Much prejudice is based on misconceptions and insufficient interface and dialogue between people with different backgrounds and outlooks.
- In our District we need to work hard together to generate the conditions where difference is accepted and the learning that can come from understanding difference is positively valued.
- Our diversity offers us the opportunity to understand the real perspectives of others and, therefore, gain a better grasp of our own collective identity. This knowledge will enable us to capitalise on our potential and generate the forward thinking, peaceful, tolerant and prosperous District we all strive for.
