

EducationCity SHOWCASE

We'll be at The Innovation Centre Bradford on Tuesday 10th November 2015 to showcase EducationCity's time-saving teacher features and engaging, educational content for students aged 3-12 years.

Come and see us to find out more about how you can use EducationCity in your classroom!

EXPLORE EducationCity

TEACH

EducationCity offers you the flexibility to adapt your teaching to the individual needs of your students, as well as saving you valuable time when planning lessons.

Meet Teaching Objectives:

Quickly find content to target key objectives using the Curriculum Map and Search tools.

Flexible Teaching:

Use Topic Tools to explore a subject further, improve understanding or extend learning.

LEARN

EducationCity helps your students to engage with concepts in different ways to overcome areas of weakness and aid their learning.

Targeted Learning:

Group EducationCity content in a MyCity to meet the learning needs of individuals, groups or whole classes.

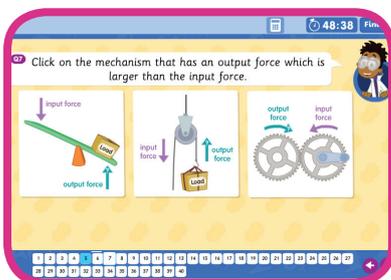

Engage Students:

Encourage independent learning or reinforce topics taught in class with Activities and Learn Screens.

ASSESS

EducationCity automatically saves individual students' results, allowing you to monitor understanding and progress, and identify areas which require extra attention.

Assess Performance:

Use Tests to assess student performance, practise test technique and generate personalised MyRevision journals.

Track Progress:

Activity and Test scores are automatically recorded in SuccessTracker so that you can easily address areas of weakness.

If you have any questions, please get in touch with Dan Cresswell, Senior Regional Manager at EducationCity.
