

# Keeping the Show On the Road!

The best performances often require a massive team effort. And that was the certainly the case for the shows that have been successfully staged at our Bradford theatre venues recently.

FM's cleaning team have played a vital part in ensuring the shows are able to take place, Whilst there were no BAFTAS or Olivier Awards being handed out, the recognition and appreciation for their efforts, as shown below, has been most welcome.

“Just to say, given what additional and onerous additional cleaning duties have been required to keep our buildings open in this challenging time, we are one of the only venues during panto season that hasn't had to postpone shows.

The cleaning and sterilising regime we have discussed and implemented has been wonderfully successful.

Please pass on our huge gratitude to you / our cleaning team for their work over past weeks and months.”

# BSI Connect

Coming soon to your kitchen tablet, is a new and improved way of recording corrective actions.

The Connect App allows staff in the organization to quickly and simply; conduct audits, record incidents and near misses, identify risks and record and close out NCR's.

Information flows back to the BSI Connect platform in real-time where it can be analysed and evaluated, providing insight that can drive decision making.

From managing environmental and health and safety (EHS) systems to quality monitoring and security incidents, it's the perfect way to collect more data, engage people and make better decisions.

# WELL DONE

We are shining a well-deserved spotlight on colleagues that have really stood out and gone that “extra mile”.

You have shared a selection of events with us, and it’s good to see how you’ve really got into the spirit of things in supporting the fun events that help make lunch times such happy times, with FM Catering. Let’s look at what some of you have been getting up to.

Reevy Hill had a full-on festival of fun, with the joy of Christmas being spread over a whole week of events and costume changes
