

SCIL (Social, Communication, Interaction and Learning) Team

Copy on to card. Cut out the squares, and place in the same order as below onto sticky back plastic, leaving a small space between each square. Cover the other side with sticky back plastic. Trim around the outer edge of the 16 boxes. The chart can now be easily folded backwards, to use in quick fire number bonds activities. They can be folded back in various ways to show every combination for number bonds to 10.
