Forecast methodology for Keighley 1

The need for primary school places depends on the local child population. Key factors in the forecast are the number of births and children registered with the Health Authority in an area, migration in and around the District and movement of families into new housing developments.

The take up rate of 98% is applied to the health data and the table below shows the calculated number of Reception places required for Keighley 1 residents in the coming years.

Year of reception intake	2023	2024	2025	2026	2027
Calculated places required	406	393	347	383	383

In addition to these figures, forecasts incorporate trends for children attending schools outside of their local planning area. For Keighley 1, the highest number of children coming in are from Keighley 2; the highest number attending elsewhere go to schools in South Craven. Historically, children attending schools here from outside of the District have not been a factor in the forecast for this area.

Forecasts and historic accuracy for Keighley 1

The tables below contain forecast data submitted to the DfE as part of the annual School Capacity (SCAP) return. The grey column shows the difference between last year's forecast and the actual number of pupils on roll at the schools at the January school census.

Reception:

Actual	2363	-	-	-	-	-
Difference	-5	-	-	-	-	-
% Difference	-0.2%	-	-	-	-	-

Note that a PAN reduction alone does not change the net capacity of the school. Total Capacity, as calculated above, factors in PAN but is predominantly concerned with the capacity of the buildings; net capacity can therefore only be adjusted as a result of significant changes to the building and / or use of space. The total capacity here is therefore the maximum number of potential school places that can be physically accommodated; however, the maximum number of pupils that can be accommodated in any year will be dependent on factors such as the PAN, the class organisation and the number of teaching staff at the school.

Planned/possible actions

A PAN reduction was implemented in September 2023 and further PAN reduction will take place in 2024. The Local Authority will continue to monitor the impact of these changes, the number of children and parental preference in this planning area whilst working collaboratively with schools and trusts and providing the required information to assist the decision-making process.

Action is also planned in surrounding planning areas, which has the potential to impact on the number of children qualifying for places at schools outside of Keighley 1.
