

South West 2 Primary School Planning Area

There are six primary schools in South West 2 planning area, five of which have nursery provision. The area is urban covering Buttershaw, Wibsey and Woodside. To the south west the planning area borders on to Calderdale Local Authority.

School name	School Type	Multi Academy Trust (MAT)	Published Admission Number (PAN)	Nursery provision
Farfield Primary and Nursery School	Community		60	Yes
Reevy Hill Primary School	Academy	Leading Learners Academy Trust	30	Yes
St Paul's C of E Primary School	Voluntary Aided		30	No
St Winefride's Catholic Primary School, A Voluntary Academy	Academy	Blessed Christopher Wharton Catholic Academy Trust	60	Yes
Wibsey Primary School	Community		90	Yes
Woodside Academy	Academy	Leading Learners Academy Trust	60	Yes

Map showing primary schools in the South West 2 planning area:

Historic numbers of pupils in South West 2

The table below provides historical information on the total number of reception places available (PAN) and number of reception pupils on roll. The total number of school places available is shown against the total number on roll (NOR) to give an overall number and percentage of surplus places (shown as a minus where there is a shortfall).

Year	PAN	Pupils in reception	Spare reception places	Total Places	Total NOR	Surplus places	% Surplus places
2016	330	332	-2	2304	2265	39	1.69%
2017	330	321	9	2316	2265	51	2.20%
2018	330	307	23	2316	2236	80	3.45%
2019	330	321	9	2316	2244	72	3.11%
2020	330	305	25	2316	2256	60	2.59%
2021	330	282	48	2316	2212	104	4.49%
2022	330	313	17	2199	2316	117	5.05%

Historic changes and academy conversions

- Reevy Hill Primary converted to academy status in November 2016 under the Leading Learners Trust.
- St Winefride's Catholic Primary school converted to academy status in October 2016 under the Blessed Christopher Wharton Catholic Academy Trust.

Health Authority Data for South West 2

The number of children recorded in the January 2022 data received from the Health Authority is shown below:

Age at 31 August 2021	0	1	2	3	4	5	6	7	8	9	10
South West 2 Total	242	322	296	305	328	340	360	351	385	379	364
Reception Intake Year	2025	2024	2023	2022	-	-	-	-	-	-	-
Year 7 Intake Year	2032	2031	2030	2029	2028	2027	2026	2025	2024	2023	2022

Forecast methodology for South West 2

The need for primary school places depends on the local child population. Key factors in the forecast are the number of births and children registered with the Health Authority in an area, migration in and around the District and movement of families into new housing developments.

The take up rate of 90% is applied to the health data and the table below shows the calculated number of Reception places required for South West 2 residents in the coming years.

Year of reception intake	2022	2023	2024	2025	2026
Calculated places required	276	268	299	220	190

In addition to these figures, forecasts incorporate trends for children attending schools outside of their local planning area. For South West 2, the highest number of children coming in have been from South West 5; the highest number attending elsewhere have gone to schools in South West 3. Historically, children attending schools here from outside of the District have not been a factor in the forecast for this area.

Forecasts and historic accuracy for South West 2

The tables below contain forecast data submitted to the DfE as part of the annual Schools Capacity (SCAP) return. The grey column shows the comparison (accuracy) of last year's forecast with the (actual) number of pupils on roll at the schools at the January school census.

Reception:

Year	2021	2022	2023	2024	2025	2026
PAN	330	330	330	330	330	330
Forecast	290	312	304	285	237	213
Surplus	40	18	26	45	93	117
% Surplus	12.1%	5.5%	7.9%	13.6%	28.2%	35.5%
Actual	282	-	-	-	-	-
Difference	8	-	-	-	-	-
Accuracy	97.2%	-	-	-	-	-

Reception to Year 6:

Year	2021	2022	2023	2024	2025	2026
Total Capacity	2316	2316	2316	2316	2316	2316
Forecast	2223	2199	2183	2143	2066	1967
Surplus	93	117	133	173	250	349
% Surplus	4.0%	5.1%	5.7%	7.5%	10.8%	15.1%
Actual	2212	-	-	-	-	-
Difference	11	-	-	-	-	-
Accuracy	99.5%	-	-	-	-	-

Note that a PAN decrease does not automatically affect the net capacity of the school. Total Capacity, as calculated above, is based on the capacity of the buildings and will only be amended if significant changes are made to the use of space. Capacity here is therefore the maximum number of potential school places; however, the maximum deliverable places in any year will be dependent on factors such as the number of classes schools are staffed to teach.

Planned / possible action

The Local Authority will continue to monitor the number of children and parental preference in this planning area.

The forecast for this area shows an increase in surplus places in 2024 and a further increase in 2025. The underlying Health data suggests 2025 would be an appropriate point to reduce the overall PAN of the area. If there are no major changes to this data, conversations will begin with schools in this area in 2023 about possible reductions for 2025 onwards.
