

South West 5 Primary School Planning Area

There are seven primary schools in South West 5, all of which have nursery provision. The area is urban covering parts of the city centre, Bankfoot, East and West Bowling, Odsal and part of Little Horton.

School name	School Type	Multi Academy Trust (MAT)	Published Admission Number (PAN)	Nursery provision
Bankfoot Primary School	Community		30	Yes
Bowling Park Primary School (two sites)	Academy	Exceed Academies Trust	90	Yes
Bradford Academy	Academy	Bradford Academy Trust (single-academy trust)	60	Yes
Marshfield Primary	Academy	Carlton Academy Trust	60	Yes
Newby Primary School	Community		60	Yes
St Matthew's C of E Primary School and Nursery	Voluntary Controlled		60	Yes
St Stephen's C of E Primary School	Voluntary Aided		60	Yes

Map showing primary schools in the South West 5 planning area:

Historic numbers of pupils in South West 5

The table below provides historical information on the total number of reception places available (PAN) and number of reception pupils on roll. The total number of school places available is shown against the total number on roll (NOR) to give an overall number and percentage of surplus places (shown as a minus where there is a shortfall).

Year	PAN	Pupils in reception	Spare reception places	Total Places	Total NOR	Surplus places	% Surplus places
2016	420	380	40	2970	2950	20	0.67%
2017	420	408	12	2970	2956	14	0.47%
2018	420	403	17	2970	2940	30	1.01%
2019	420	407	13	2970	2954	16	0.54%
2020	420	404	16	2940	2900	40	1.36%
2021	420	384	36	2940	2872	68	2.31%
2022	420	351	69	2798	2940	142	4.83%

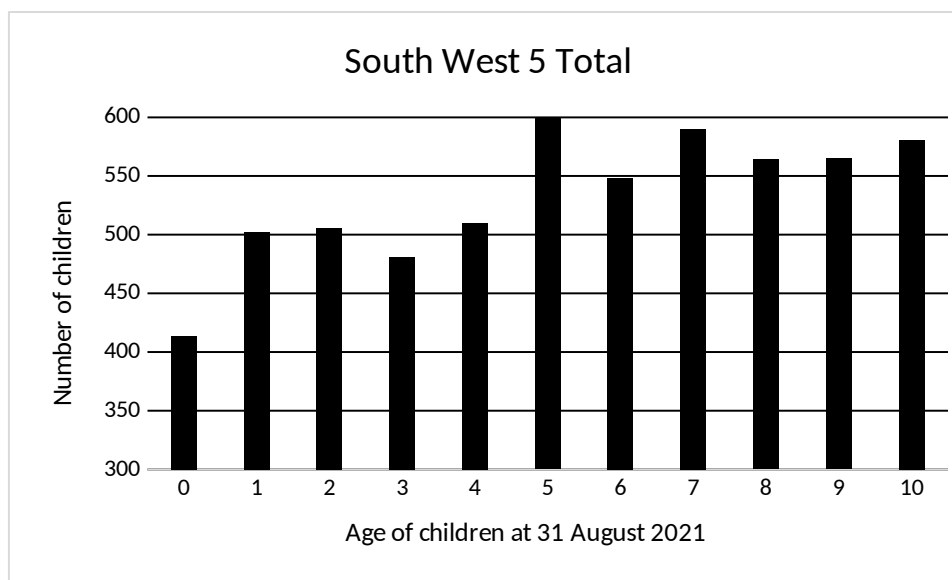

Historic changes and academy conversions

- Marshfield Primary School converted to academy status in December 2020 under Carlton Academy Trust.
- Bowling Park Primary School converted to academy status in September 2022 under Exceed Academies Trust.

Health Authority Data for South West 5

The number of children recorded in the January 2022 data received from the Health Authority is shown below:

Age at 31 August 2021	0	1	2	3	4	5	6	7	8	9	10
South West 5 Total	414	502	506	481	510	599	548	590	564	565	581
Reception Intake Year	2025	2024	2023	2022	-	-	-	-	-	-	-
Year 7 Intake Year	2032	2031	2030	2029	2028	2027	2026	2025	2024	2023	2022

Forecasts for South West 5

The need for primary school places depends on the local child population. Key factors in the forecast are the number of births and children registered with the Health Authority in an area, migration in and around the District and movement of families into new housing developments.

The take up rate of 92% is applied to the health data and the table below shows the calculated number of Reception places required for South West 5 residents in the coming years.

Year of reception intake	2022	2023	2024	2025	2026
Calculated places required	439	467	464	386	347

In addition to these figures, forecasts incorporate trends for children attending schools outside of their local planning area. For South West 5, the highest number of children coming in have been from South East 1; the highest number attending elsewhere have gone to schools in South West 4. Historically, very few children have attended schools here from outside of the District.

Accuracy of forecasts

The tables below contain forecast data submitted to the DfE as part of the annual Schools Capacity (SCAP) return. The grey column shows the comparison (accuracy) of last year's forecast with the (actual) number of pupils on roll at the schools at the January school census.

Reception:

Year	2021	2022	2023	2024	2025	2026
PAN	420	420	420	420	420	420
Forecast	385	352	366	367	312	283
Surplus	35	68	54	53	108	137
% Surplus	8.3%	16.2%	12.9%	12.6%	25.7%	32.6%
Actual	384	-	-	-	-	-
Difference	1	-	-	-	-	-
Accuracy	99.7%	-	-	-	-	-

Reception to Year 6:

Year	2021	2022	2023	2024	2025	2026
Total Capacity	2940	2940	2940	2940	2940	2940
Forecast	2857	2798	2773	2736	2652	2538
Surplus	83	142	167	204	288	402
% Surplus	2.8%	4.8%	5.7%	6.9%	9.8%	13.7%
Actual	2872	-	-	-	-	-
Difference	-15	-	-	-	-	-
Accuracy	99.5%	-	-	-	-	-

Note that a PAN decrease does not automatically affect the net capacity of the school. Total Capacity, as calculated above, is based on the capacity of the buildings and will only be amended if significant changes are made to the use of space. Capacity here is therefore the maximum number of potential school places; however, the maximum deliverable places in any year will be dependent on factors such as the number of classes schools are staffed to teach.

Planned / possible action

The Local Authority will continue to monitor the number of children and parental preference in this planning area.

Whilst surplus places are forecast for this planning area, this is largely due to the area being a net exporter of children to other planning areas. The Health data for this area is much more closely aligned with the combined PAN of the schools here. To protect against an increase in local children requesting places in their 'home' planning area, there are currently no plans to address the surplus here for 2024. However, PAN reductions will likely be required for 2025.
