

## Network Meetings to Inspire and Inform Primary Maths Subject Leaders

### **BE PART OF IT**

*Hosted by Sharon Day*

**2018 – 2019**

For the second year running, this series of four afternoon workshops, spread across the academic year, is for subject leaders of mathematics. It will provide them with the opportunity to update, network and develop. The sessions will keep them up to speed with new initiatives and there will also be bespoke elements to the sessions as the content will be built around meeting identified needs within your own school. Agendas will be set by the mathematics subject leaders attending which will be complemented by messages, ideas and resources that the course leader will share with them. Maths subject leaders from the schools who attended during 2017-18 are signing up again, so join us and **be part of it**.

- The training will take the form of four afternoon sessions, spread across the academic year.
- The cost is £200 for the year's support.
- The venue for the first session will be at Keighley St. Andrew's C of E Primary School, Lustre Street, Keighley, BD21 2ND *(The subsequent sessions will be held at the schools offered by the delegates attending.)*

Sessions	Date	Time	Venue
