

Team SCIL

News and Updates from the Social, Communication, Interaction & Learning (SCIL) Team

As our SEND Specialist Support offer has continued (seamlessly) into this academic year, Specialist Teachers and Practitioners are providing support to 192 (97%) schools following the intent and implementation as outlined in the planning and delivery document. Also the following training has been delivered so far centrally at Margaret McMillan Tower with very positive feedback received:

- The Multi-Sensory Literacy (MSL) course,
- AET - Making Sense of Autism/Early Years,
- Fundamentals for Inclusion - Early Years,
- Practical Strategies for children with Cognition & Learning needs,
- Fundamentals for Inclusion - Learning Support,
- Practical Strategies and Support for children in the Early Years,
- New SENDCo Induction.

Partnership Agreement

One of the priorities on our development plan is to communicate consistent information about service vision and delivery for all stakeholders. Within this, an action was to create a partnership agreement document. The aim of the document is to set out expectations for the SCIL Team link and the school.

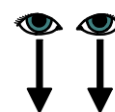

Your link will share the document with you before the end of the term and ask for a signature from the SENCo and the headteacher to show commitment to partnership working.

One of the expectations within the partnership agreement is for the school to 'bring (the) changing needs of the school community and vulnerable pupils to the attention of the link including risk of permanent exclusion'. It's vitally important that this information is shared in a timely way so that we can enable a rapid response to prevent any situations from escalating.
