Since juvenile years I have resided in Bradford.

I was the youngest Muslim magistrate in the country in 2009. It is almost 10 years since I was sworn in and unfortunately I have only seen risen crime. Over the past years I believe that the issue is due to lack of education.

My passion is to encourage people to educate themselves. The focus is to raise awareness on; importance of education in society, children, our lives, women and all adults.

I believe education is fundamental, as it develops personality of the people, provides physical and mental standards and transforms people's living status, or constructs in nature which constructs our future forever.

Having education promotes good habits and awareness about corruption, crime, and other social issues in the society.

We all take birth in same manner and on the same planet, we are not different to anyone and no one is born intelligent as intelligence is nurtured.
I want everyone to believe that they can be what they want to be and that is despite their sex, age or ethnicity.

trials and sentencing. I ensure that an effective relationship is maintained with lay magistrates and also comply with Magistrates Judicial Council Guidelines, considering both the evidential burden and interest of justice to deliver agreed decision. Undergo training regularly to keep up to date with implementing law.
