

Playful Maths: physically active learning

Hosted by Eldwick Primary School

Led by Sharon Day of SharonDayMaths Ltd and Bryn Llewellyn of Tagtiv8

Tuesday 18th September 2018

Being active in maths lessons increases children's engagement. Learning maths through playing games is fun.

'A study by Leeds Beckett University into physically active learning found that pupils who took part in active lessons gained 7% more marks in maths than pupils in sitting down lessons'. For initial findings, visit: <http://www.leedsbeckett.ac.uk/news/0517-tagtiv8-research/>

During the day, we will explore:

- ✓ games and activities, indoor and out, that will engage and enthuse your learners
- ✓ which of the statutory requirements from the national curriculum (primary mathematics) they cover
- ✓ how to use games and physical activity to promote the acquisition of mathematical vocabulary and technical language as well as reasoning and problem solving behaviours

This course will be particularly useful for NQTS and RQTs but will also benefit any teacher or manager of mathematics.

Date	Time
Tuesday 18 th September 2018	9:30 am – 2:30 pm

Venue: Eldwick Primary School, Warren Lane, Bingley, West Yorkshire, BD16 3LE
