

Resource

0 – 25 Specialist Teaching And Support Service

Resources to a tipping, scattering and heaping schema.

Resources to facilitate learning opportunities to tip, heap and scatter:

	Sensory play where children can tip, scatter and heap e.g. sand, oats, lentils, glitter.
	Build towers and knock them down.
	Scatter collage onto glue.
	Add scattering tools to expand play e.g. colanders, sieves, funnels.

	Play in a ball pool.
	Use spray bottles to make patterns.
	Take scattering outside - sow seeds, feed birds, scatter leaves, play with gravel on a tuff tray, tip bean bags, water plants using a watering can with a rose, blow and pop bubbles.

Things to note:

This resource sheet is part of the Schemas – Tipping, Scattering and Heaping Tool Kit.
