

# Greatness exists in every student

Our job is to help them discover it. We believe that the right technology can help.

## SMART Learning Suite™

Four of the world's best education software applications

SMART Learning Suite combines lesson creation and delivery, formative assessment, student collaboration and game-based learning software in one package. It connects students, teachers and devices to turn lessons into enriching learning experiences.

### LESSONS

#### **SMART Notebook®**

Design and deliver impactful lessons with world-leading education software.

### GAMIFICATION

#### **SMART lab™**

Create engaging game-based activities in less than five minutes.

### FORMATIVE ASSESSMENT

#### **SMART response® 2**

Assess student progress on the fly by allowing learners to answer through any device.

### CO-CREATION

#### **SMART amp™**

Discover meaningful live co-creation and collaboration in a shared online workspace.

# SMART Learning Suite

Any device. Any approach. Learning is all around us.

SMART Learning Suite combines 4 software applications, each uniquely designed for the classroom. It's one ultimate education suite with one simple pricing model.

## SMART Notebook

Notebook is the ultimate education platform for lesson creation and delivery. It includes subject-specific tools, lets you run a lesson from your iPad and has thousands of free resources to engage students and make lesson planning easy.

## SMART lab

SMART lab gives teachers the means to quickly build game-based activities that amaze and engage students. Students are too busy having a great time to realize how much they are learning!

## SMART response 2

What better way to ensure student success than to instantly see how well they've understood a lesson? This formative assessment software allows you to create a question set in a few minutes that students can answer from their devices.

## SMART amp

Bring the whole class, groups of students or individuals together in a shared space to work on projects, add multimedia content and instant message. This is all done using student devices and while tracking contributions from each student.
