

SafeBase for Schools

Helping young people reach their potential

What will the course cover?

- The impact of developmental trauma in the classroom – how early life neglect and abuse shapes brain development and the child's ability to learn
- Theraplay® informed practice and its practical application to the classroom

Participants will:

- Gain knowledge about early experiences and developmental trauma;
- Learn about, and experience, Theraplay® techniques;
- Explore practical strategies to use within their school environment.
